

MOKFI

Company Overview

Mokfi Trading Company entered the global market with the aim of producing and exporting organic fruits such as cherries, frozen sour cherries, pears, apples, kiwis, grapes and apricots in the Middle East.

Using specialized staff and state-of-the-art equipment, this company produces a variety of fruits with the highest quality and prepares them for the global market in the cold stores.

Mokfi has warehouses and cold stores equipped with high-tech machinery to store its products. This company can export a variety of fruits globally throughout the year.

Business Description

Since there are four seasons in the Middle East with a diverse climate condition, a variety of fruits can be cultivated in all seasons. This region is ranked first in the world in terms of diversity and quality of crops with suitable conditions for the production of fruits and greenhouses.

The fruit industry is a very prosperous and lucrative business worldwide, therefore, a lot of countries are competing in this area. China ranks first with the production of 160 million tons of fruit.

Hong Kong is in the second rank with 158 million tons of fruit production and finally India with agricultural production of 88 million tons of fruits ranks third in the world.

Mokfi Trading Company has managed to be one of the top brands in the production of fruits in the Middle East by meeting the needs of traders in the Middle East.
